Dear sir/madam,

My name is Cecilia Wanjiru. I am thirteen year old, I am heading to form one. I joined this home back in year 2003.

I came here because my mother passed away in ^{the} year 2000 leaving us under the care of my grandmother. She owns one acre of land which could not provide me with my twin sister any nutrient. She did not have any other source of income and finds it very difficult to maintain us. Our grandmother could place a sack on which we used to play sleep on it. When our grandmother went to buy blankets she found that they were costly. So we used to have a common cold and she didn't have enough money to take us to the hospital.

The support that I require is to get better education, food and clothes. As I grow up I want to be a teacher so that I can teach other children like I. As I continue with my job, I can be a role model to the other teachers in the world.

yours sincerely
Cecilia Wanjiru.
