Dear Sir/Madam.

My name is Immaculate. I am looking forward to joining class eight next year. I joined here on two thousand and three.

I came here because my mother was mentally challenged and she deserted the family. My father was unable to cater for four children. Mostly because I was the last born.

My life at school, I would like to be supported with basic needs such as clothes, food and education. After my class eight exams, I will be joining high school and I would like you to find for me a sponsor to sponsor me until university so that I may achieve my future goal.

- yours faithfully Immaculate.
